

## OXYGEN TYPE OZONE GENERATORS Series K-PSA

Ozone is the most powerful oxidant and disinfectant which can be safely used in multiple applications.

SEWEC ozone generators, series **K-PSA** are for ozone production from oxygen at high ozone concentration. They are equipped with all components and parts required for safety, efficiency and ease of operation. The ozone generators are available at 6, 10 and 20 grams O<sub>3</sub>/hr.

All systems are equipped with an in-built automatic operated oxygen concentrator for providing oxygen gas at 90-93% purity as feed gas.

SEWEC ozone generators are equipped and manufactured in accordance with DIN19627 and EN1278.

**General features:**

Compact robust construction  
Fully equipped with all required system components  
Designed and manufactured for long-life span  
Multiple monitoring and safety features  
Ease of operation

**Technology:**

Electrical control includes PLC with text display  
Ozone module of stainless steel 316Ti  
High-voltage electrodes with integrated fuses  
Resin-embedded power transformer

**Ozone production control:**

Manual adjustment by multiple-step-switch or various transformer  
Automatic control versus control signal 4-20mA)\*

Options:

Inbuilt frequency inverter for automatic ozone production control  
Inbuilt oilfree compressor

)\* Automatic ozone production control by inbuilt frequency converter, power supply 3x 400V,3-ph,50/60Hz

Model name: K...-PSAF
